The PC Commercial Debit Card

It's a Group-Purchasing Network that revolves two million dollars per month to the members and the community.

The Business Debit Card that pays

\$1,500 to \$10,000.00 every month

The amount earned is based on each member's current and projected annual budget. All members are vetted and certified by the Carolina Business Development Network before receiving funds and services. All members are contracted to use the PC Debit Card partners for startup, expansions and operations.

BRIEF SUMMARY

The PC Debit Card started-out as a multimedia membership service twenty-five years ago and has been tested in cities nationwide and with many industries and demographics.

The PC Debit Card is a Group Purchasing Network that charges corporations a fee for exclusive business contracts with the members. The amount that is collected through the debit card system is paid-out every month to the debit card members. Members are contracted to use the paying-corporations (exclusively).

The system is setup and operates serving groups of 500 to 3,500 small businesses and organizations.

The first phase of the PC Debit Card is being launched through a unique funding program, The Two Million Dollar "Funding-Solutions" Campaign. This campaign will distribute an average of four thousand dollars per month to each member of the group of 500 organizations, totaling two million dollars per month.

The campaign will demonstrate the PC Debit Card's ability to electronically collect fees from the corporations and distribute the fees to the participating members who are primarily nonprofit community organizations, youth programs and projects.
