The members will also sell and purchase their services and products from their individual PC Web Accounts on the network.

Corporations compete for contracts and pay a minimum of 7% on the "guaranteed-minimum-contracts." The Revenue generated from the corporations are electronically distributed to all active network members every month (commercial and Individual members).

Commercial Card Members:

500 organizations spending \$10,000 month = \$60 million dollars per year. Six Regions spending together = \$60 million per month. 7% to 10% Commission on \$60 million dollars = \$5 million dollars (*distributed to card members*).

Individual PC Card Members

One million users spending \$1,000 per month = one billion dollars. 8% to 12% commission on One Billion is \$100 million dollars (*distributed to members*). All funds are revolved out of the account every 30-day cycle.
