VISION STATEMENT

It is our belief that this system will usher-in a new era of national and international policy influence and a path-to financial independence for minority populations, by providing a group-economic, communication and investment system that will leverage the value of the population's spending, the talents and their collective voice, while revolving (rebating) a percentage of the monies from the group-purchases back into the communities for economic development, automatic family and population investment and individual revenue streams without government intervention, political or financial dependencies from any source.

VISION BREAK-DOWN

1) National and International Policy Influence	-The PC Communication Platforms. - The PC Debit Card Purchasing	The group of forty million Americans finally have a purchasing and communication platform that will cause law-makers to hear, respond and act-on the group's concerns (<i>because the law-makers fully understand the economic-power of the group</i>).
2) A Dependable Path (source) to Financial Independence	- The PC Debit Card Rebates - The PC Automatic Investment & Returns Network PC-AIRN	The new "automatic life-time income source" from the rebates, investments and the financial education and resources will produce the type of life-style each user desires.
3) A Group-Economic System	The PC Debit Card The PC-AIRN (Automatic Investment & Returns Network)	The forty million individuals spending their money using a specific set of merchant service-providers and the in-network corporate-providers, produce the new Group-Economic System.
4) A Group Communication System	The PC Communications CBN (now operating)	The forty million using one platform for their communications, emails, videos, podcasts and social media etc. provides the platform for truth and information from all groups without societal, political or corporate influence on the content.
5) A Group Investment System	PC-AIRN (Automatic Investments & Returns)	A percentage of the funds generated from all platforms are automatically invested and re-invested into seven areas (education, farming, manufacturing, mining, transportation etc).
6) Leveraging the Value of the Spending	PC Debit Card Carolina B2B Network	We leverage the value of spending together, by using one set of merchant providers and spending with in-network (minority) providers and the highest bidding corporate providers.
7) Leveraging the Value of the Talents	PC Debit Cards PC Communications Media Arts & Business Centers Carolina B2B Network	We leverage the value of our talents by using our member-businesses, resources and contracting with the companies that pay our users the most in salaries.
8) Leveraging the Value of the Collective Voice	PC Debit Card PC Communications CBN (now operating)	Forty million using the PC Communication's Platform will cause corporations and law-makers to adhere-to and act-on the needs of the forty million.
9) Community Economic Dev. Funding	- PC Community Development. - HCCD (now) - PC Debit Card payments	\$18,000 to \$120,000, four million and Twenty-four million dollar returned and revolved through local small businesses and nonprofits will allow communities to be strengthened and sustained financially.
10) Automatic Individual, Family & Population Investment & returns	PC-AIRN (Automatic Investments & Returns)	A percentage of all rebates will be automatically invested on-behalf of the group and Every user. Every user will automatically receive a dividend check for the remainder of their life (<i>everyone qualifies</i>).
13-15) No Gov. Political Intervention or support.	The PC Debit Card Corporate Purchasing Contracts.	Because the entire system is based-on the "guaranteed spending" current and projected from each individual and the group, there is NEVER a need for government intervention.

THE PC SUCCESS TEAM

How it Works

- ❑ The PC Debit Card offers 500 Slots per Industry per region or city.
- ❑ 500 Commercial Members who use the same 100 products or services to run their operations, are paired with a “cluster” of companies that provides their specific “cluster” of services or products.
- ❑ The PC Merchant System pays the companies (corporations) on-the-behalf of the group of 500 members based on each member’s pre-budgeted needs and spending habits.
- ❑ PC Card Members will never give-up their “PC Slot/membership” (*because it includes all of the services, products and resources that they need*) and because-of the financial benefit that their organization receives from that slot/membership.
- ❑ The 200 companies are also paying the organizations to remain in that slot.
- ❑ The PC Success Team Members remain members as long they are providing an excellent product for the members and their company values remain in-line with the PC values.

Brief Summary

Perfect Connection (PC) Debit Card

The Debit Card

A new long-term funding source of \$1,500 to \$10,000 per month is now available for Small Businesses, Nonprofits and community projects!

\$1,500 to \$10,000 every single month is now available for small businesses and nonprofits.
It's Not Free Money, Loans or Grants, It's Never Repaid and It Never Runs Out!

The amount members qualify to receive is based on their operation's budget.

Funds are provided through a new Group-Purchasing Debit Card that revolves two million dollars per month through the local community every month.

The PC Debit Card is being launched through The Two Million Dollar "Funding-Solutions" Campaign and The Pitch Television Show.

All nonprofits, small businesses, churches, teams and community projects are encouraged to register for these funds.

Purchasing operational needs with specific corporations are required in order to receive these funds. The Debit Card must be used for payroll, equipment, bills, debt and supplies et. Members are never required to purchase anything that is not needed for operations or expansions. New startups are encouraged to apply.

Registration and Information Sessions are happening now in Longs, Conway, Myrtle Beach, Loris and Georgetown. You Must Register and attend one of these sessions online or in-person.

Brief History

The PC Debit Card started-out as a multimedia membership service twenty-five years ago and has been tested in cities nationwide and with many industries and demographics.

The PC Debit Card is a Group Purchasing Network that charges corporations a fee for exclusive business contracts with the members. The amount that is collected through the debit card system is paid-out every month to the debit card members. Members are contracted to use the paying-corporations (exclusively).

The system is setup and operates serving groups of 500 to 3,500 small businesses and organizations.

The first phase of the PC Debit Card is being launched through a unique funding program, The Two Million Dollar "Funding-Solutions" Campaign. This campaign will distribute an average of four thousand dollars per month to each member of the group of 500 organizations, totaling two million dollars per month.

The campaign will demonstrate the PC Debit Card's ability to electronically collect fees from the corporations and distribute the fees to the participating members who are primarily nonprofit community organizations, youth programs and projects.

A New Era for Business Services and Customer Acquisitions

There is **now**, a new standard for business operations when groups are purchasing together on this level.

Industries that will **LOVE** this Network!

1. Nonprofits, Churches and Schools.
2. Small Businesses struggling to stay-alive or grow their customer-base.
3. Corporations seeking to save on customer acquisitions and advertising.
4. Home Care Industry
5. Youth Sports Programs
6. Performing Arts Programs
7. Senior Care Industries

40 MILLION WINS

1. Corporations who will accept the PC Debit and Group Customer Contracts.
2. Small Business Owners.
3. Nonprofits, Churches and Schools who will use the PC Debit Purchasing Card.
4. 40 Millions Individuals who desire an increase in their annual income.

WHY DO THEY WIN:

Because they have a vested-interest in helping the forty million WIN!

A New Era for Funding Dreams and Generational Wealth

New Jobs and new business opportunities will be made available for Individuals and business owners who may lose their job or business because of this system.

Industries that will **HATE** this Network!

or will need to re-structure how they serve.

1. High interest loan companies (predatory lending).
2. Customer referral services and lead generators.
3. Advertising agencies will see a need to re-adjust services.
 - Why? Because of the corporation's guaranteed life-time customer contracts.
 - Corporations will take from their advertising budgets to pay into their rebate and purchasing contract budgets.
4. Debit card transaction companies.
5. Lobbyists & politicians receiving kick-backs, favors and money for setting laws, regulations and policies for how corporations reach demographics of people.
6. The Prison, Probation and Parole System (to include criminal attorneys and bail bondsmen).
7. Prepaid debit card companies..
8. The Video, Music and Entertainment Subscriptions Services (to include porn sites).
9. Drug dealers, gangs, criminal organizations and entertainment companies that distribute self and community destructive materials.

THEIR NEW SOLUTION:

To Serve the Forty Million in a different capacity.

If industries **will not change** with these times, they will go out of business, just like those that did not change with the internet era.

WHY THE HATE?

1. Because these industries benefit from the status quo of the various group's conditions, misfortunes, ignorance or education levels.
2. Or Because whatever service or system they provide is dependent on these groups not understanding the destructiveness of their services or products.

Inviting Community, National and World Leaders,

You are invited to “Review” & “Respond” to the new Perfect Connections Group-Economics Network.

After Twenty-five Years of Development and Trials, it’s Launch Time!

We are inviting all nationally recognized business, economic and media leaders, professionals and schools to review the network and to provide their professional feed-back publicly or privately.

Our desire is for you to provide your feed-back (on this system) to the community and to also “speak-on” your awareness of any other comparable or better solution that is in operations now (See the participation options).

All organizations invited and “YOUR” followers, listeners, members or fans agree that our country (specifically the African American Race) is overdue for a solution and a system that will unite, serve and financially benefit this population as a whole and each adult and family individually.

The Perfect Connections Network is the solution and the Service that will “*finally*” unite the population and fund community development and new streams of revenue for millions through rebates on the group-spending.

This system is currently being tested in the Carolinas under the Carolina Business-to-Business Network. Industry Information Sessions are held every Monday 12pm and 6pm in-person and via zoom for public and professional feed-back as we register commercial members for phase one.

Investments, donations or grant funding **will never be requested or required** for the operations of this network.

Commercial, Individual, Student or Corporate Users, register for the service they desire, based on their spending level.

This PC Networking System will serve and benefit every citizen, individual, small business and nonprofit.

Why Should You Respond? How Will Your Organization Benefit?

1. Millions “Will-Join” this Network for the financial rebate from the money they are already spending (*most are your supporters, followers, members or fans, who many are currently suffering financially and resourcefully*).
2. Taking the lead by simply reviewing and responding will show millions (who are in desperate need of a service such as this) that you desire to help them reach their Financial Goals, Freedom & Wealth.
3. For a Membership and the Option of Managing one, of the Two, or Twenty-four-million-dollar networks.

We are not seeking any type of endorsement, funds or resources (your opinion will help the community to seek additional information in-order to make an informed choice).

Invited to Review & Respond

These national leaders, media, organizations, institutions and schools along with others are Invited to Review, Respond and Participate for their Communities.

We are not seeking any type of endorsement, funds or resources (your opinion will help the community to make an informed decision about the network).

1	Do You Understand The Operating Systems <ul style="list-style-type: none"> A. Where the funding is Originating? B. Who it is Distributed to C. Why they Receive it? D. Where the funding will End-Up? 	It's A Rebate System <ul style="list-style-type: none"> • That also Makes the Vendors Bid on the Group-Contracts for 7% per million dollar minimums. • All users receive a determined amount each month based on their projected spending budgets.
2	What are Your Thoughts on This System (This Funding Source)?	Do You Believe it is Sustainable?
3	Do You believe this system can manage and leverage the value and the Influence of Twenty Million Individuals spending together	(Which is Four Trillion Dollars Annually). Our goal is Four Billion Members Worldwide.
4	Do You Believe there is another system in existence or emerging that will bring groups (in-particular) African Americans or Africans together that will leverage their value and resources that are comparable to White America, Jews, Italians, Europeans, Japanese, Mexicans etc..	This system is not designed to benefit any particular group. However, because African-Americans and most Africans do not have a proven-financial-system (at all) this system will appear to help them more, because-of the rapid-progress they will experience when moving from nothing to something.
5	Do You Believe a system such as this can change the course of American History and the Course of the World Financial System? Elaborate? Why are Black Americans and Africans at the bottom of the financial-influential chain?	Can a system such as this Unite this race despite religion, economic status or geographic locations. (This system is based-on spending on the basic necessities of life that all humans need regardless of color, status or beliefs).
7	Do You Believe this system (by-routing the spending) will change societal norms of oppressive systems because these groups (since coming to America) has never had a reputation or a system that united their spending abilities, influence and power.	
8	Do You believe this system can be used to Invest in Land, Farming, Manufacturing, Education, Healthcare and Technology on-behalf-of millions of individuals who has not financially or resourcefully (as a race) benefitted from these resources and their ancestor's labor in these areas?	
9	Do You Believe This System can produce returns (from the group-investments) for the users, that will cause generational transformation for millions of users along with their financial literacy and disciplined life-style choices that has been proven to produce and sustain wealth (or a satisfying life-style).	Which will result in a new era of Influence, Life-Style because of the ownership and access-to opportunities and resources without prejudice that is caused by societal disregard of the value of the people. Now this people has access to through their buy-in in the system by using the PC Debit Card to purchase with a group of millions.
10	Do You Believe , African Americans Do Not need Reparations, the Government's Assistance or Approval for this project. We simply need to sign-up for this debit card and start using it.	If the government was going to do something, they would have by now...Is there another solution? Is there another option on the table or in the works? If so...let's here it!
11	What are your Thoughts on this system being launched at this time?	Why Will It Work? Why will it get Better? Why will it Catch-on World-wide?
12	What are your Thoughts on the Carolina Phase One Projects The Two Million Dollar "Funding-Solutions" Campaign. The Carolina B2B Industry Networking Sessions.	1. Carolina B2B Membership (recruiting 500 to 5,000) 2. HCCD Six Building Projects 3. Twenty Industry Networking Sessions
13	Why Will it change Communication and Financial Systems "Just-like" the Internet and the Cell Phone?	Our answer; Because of the numbers of individuals that will use it for a unified-specific-purpose!
15	What are your Suggestions, Resources and Observations to Ensure this System, Succeeds and Serves Your Purpose, Your Institution's Purpose and Strengthens Communities and Families Worldwide.	This Network And Funding Is Operating And Will Succeed By All Means Necessary:

HOW THE SYSTEM WORKS

500 commercial card members and One million individual card members per region or per one million residents, serviced by demographic and industry will be spending together using one website and one financial platform to purchase from the contracted corporations. The members will also sell and purchase their services and products from their individual PC Web Accounts on the network.

Corporations compete for contracts and pay a minimum of 7% on the "guaranteed-minimum-contracts." The Revenue generated from the corporations are electronically distributed to all active network members every month (commercial and Individual members).

Commercial Card Members:

500 organizations spending \$10,000 month = \$60 million dollars per year. Six Regions spending together = \$60 million per month. 7% to 10% Commission on \$60 million dollars = \$5 million dollars (*distributed to card members*).

Individual PC Card Members

One million users spending \$1,000 per month = one billion dollars. 8% to 12% commission on One Billion is \$100 million dollars (*distributed to members*). All funds are revolved out of the account every 30-day cycle.

The individuals that do not comply will be re-located.

At any one time, nearly 6.9 million people are on probation, in jail, in prison, or on parole in the United States.

Each year, more than 600,000 individuals are released from state and federal prisons. 9 million cycle through local jails. More than two-thirds of prisoners are rearrested within 3 years of their release and half are reincarcerated.

When reentry fails, the costs are high — more crime, more victims, and more pressure on already-strained state and municipal budgets. There is also more family distress and community instability. Roughly 1 in 28 children currently has a parent behind bars. Mass incarceration has been a major driver of poverty. Without mass incarceration, it is estimated that 5 million fewer Americans would have been poor between 1980 and 2014. <https://aspe.hhs.gov/incarceration-reentry>.

**Six Million Individuals Spending Together
@ \$1,000 per month = Six Billion Dollars per month
Equals \$72 Billion Per Year**

That's why the system want's us together in-jail. We are spending together for them. They are getting that \$72 billion dollars, plus what the families are spending. This does not include the attorney and court fees etc.

NOW.. Through the PC Platforms, spending together we can bring 20% of the \$72 Billion Dollars back into our communities and families.

Interesting how the only time our government can bring us together is to incarcerate us in prison, housing projects and low-wage factories, hotels and kitchens.

THE SOLUTION

**SIX MILLION INDIVIDUALS SPENDING TOGETHER
EQUALS \$72 BILLION DOLLARS A YEAR**

The PC Network eliminates:

90-DAY PROCESS

To Acquire the Twenty-four Million Dollar – Network Administrator

PLANNING MEETINGS

Purpose of the Weekly Industry Networking & Planning Meetings

1. To Establish Your \$24 Million Dollar Bubble
 - To determine who will be served through the Revolving Twenty-four Million Dollars: your general community, members, chapters, churches, teams or a specific industry.
2. To determine the specific project(s) to be funded and develop or critique the business-plan & budget.
3. To Setup your Funds and Merchant Account with the local participating bank.
4. To setup Your Video Podcast and Industry Networking Sessions on the Network (set communications strategy).
5. To identify the first 500 Small Businesses and nonprofits and invite them to your weekly Information Sessions (they are needed to purchase-with-you in-order to acquire the \$24 Million Dollars).
 - 50 users will be acquired and served first.
 - The 50 will each be required to influence 4 others to register = 200
 - The 200 will be served and required to register 2.5 others = 500
6. To meet the first 30 local Corporate Service-Providers.
 - Your group of 500 members will purchase specific products-from these companies.
 - To submit the purchasing contracts. The 30 corporations will each pay \$80,000 per million dollars for your guaranteed business.
 - Totaling \$2,400,000 per month for 12 months = \$28,800,000 (\$4 million paid to your organization for administration.
7. To train your administration team or set an administrative team to work with your organization.

The entire process electronically managed through the merchant services and the debit purchasing card. It is the electronic debit card that keeps all users and the corporations united and using one financial system.

The network's goal is to acquire 100 Administrators Across the Nation to Serve the Various Industries.
The System works best when 100's of communities are working this process simultaneously.

START-UP FACTS

TO BE REMEMBERED ABOUT THE PROCESS

1. You are Marketing and Promoting Your own Agenda (not Wardell's or the Network's),
2. I or the network is not giving you money, we are setting-you-up and teaching you and your group how to acquire and keep the funds (meaning we are not giving you "the fish" "the money" we are teaching you how to fish how to get the funds and keep the funds revolving every year through your community or industry.
3. You are promoting and talking about What you are doing with the \$24 Million, Who it will Benefit, How it benefits them and how they can receive their share of this \$24 Million and their \$18k to \$120k.
4. There is difficult process of acquiring \$24 Million in anyway (as a professional athlete, actor, musician, entrepreneur or whatever generating, borrowing or through grants or donations acquiring \$24 Million a year is difficult and this program process is no different.
5. What other source of money on this level is available? That will Benefit ALL COMMUNITIES AND ALL PEOPLE!!!

THE BENEFIT:

Your Organization Receives \$24 million dollars and You are helping 500 other small businesses and nonprofits to receive \$1500 to \$120k.

This is how banks & insurance companies have been raping us...
All the \$24 Million is going into Your Account for you to disperse....

Those managing the \$24 Million must be able to Influence 500 or One Million to join them.
I will show you how to put a revolving \$24 million in groups of 500 churches/temples/chapters/teams or \$4 million in groups of 50.

The PC Commercial Debit Card

It's a Group-Purchasing Network that revolves two million dollars per month to the members and the community.

The Business Debit Card that pays

\$1,500 to \$10,000.00 every month

The amount earned is based on each member's current and projected annual budget. All members are vetted and certified by the Carolina Business Development Network before receiving funds and services. The system is setup and operates serving groups of 500 to 3,500 small businesses and organizations.

The first phase of the PC Debit Card is being launched through a unique funding program, The Two Million Dollar "Funding-Solutions" Campaign. This campaign will distribute an average of four thousand dollars per month to each member of the group of 500 organizations, totaling two million dollars per month.

The system is setup and operates serving groups of 500 to 3,500 small businesses and organizations.

The first phase of the PC Debit Card is being launched through a unique funding program named The Two Million Dollar "Funding-Solutions" Campaign. This campaign will distribute an average of four thousand dollars per month to each member of the group of 500 organizations, totaling two million dollars per month.

The campaign will demonstrate the PC Debit Card's ability to electronically collect fees from the corporations and distribute the fees to the participating members who are primarily nonprofit community organizations, youth programs and projects.

WE ASSIGNED YOU AN EMPLOYER IDENTIFICATION NUMBER

Thank you for applying for an Employer Identification Number (EIN). We assigned you EIN 88-3575196. This EIN will identify you, your business accounts, tax returns, and documents, even if you have no employees. Please keep this notice in your permanent records.

Taxpayers request an EIN for their business. Some taxpayers receive CP575 notices when another person has stolen their identity and are opening a business using their information. If you did **not** apply for this EIN, please contact us at the phone number or address listed on the top of this notice.

When filing tax documents, making payments, or replying to any related correspondence, it is very important that you use your EIN and complete name and address exactly as shown above. Any variation may cause a delay in processing, result in incorrect information in your account, or even cause you to be assigned more than one EIN. If the information is not correct as shown above, please make the correction using the attached tear-off stub and return it to us.

Based on the information received from you or your representative, you must file the following forms by the dates shown.

Form 1065

03/15/2023

If you have questions about the forms or the due dates shown, you can call us at the phone number or write to us at the address shown at the top of this notice. If you need help in determining your annual accounting period (tax year), see Publication 538, *Accounting Periods and Methods*.

We assigned you a tax classification (corporation, partnership, estate, trust, EPMF, etc.) based on information obtained from you or your representative. It is not a legal determination of your tax classification, and is not binding on the IRS. If you want a legal determination of your tax classification, you may request a private letter ruling from the IRS under the guidelines in Revenue Procedure 2020-1, 2020-1 I.R.B. 1 (or superseding Revenue Procedure for the year at issue). Note: Certain tax classification elections can be requested by filing Form 8832, *Entity Classification Election*. See Form 8832 and its instructions for additional information.

A limited liability company (LLC) may file Form 8832, *Entity Classification Election*, and elect to be classified as an association taxable as a corporation. If the LLC is eligible to be treated as a corporation that meets certain tests and it will be electing S corporation status, it must timely file Form 2553, *Election by a Small Business Corporation*. The LLC will be treated as a corporation as of the effective date of the S corporation election and does not need to file Form 8832.
