Uniting and funding the forty million Americans is made available through a debit purchasing card system and communication platforms. “The Forty Million Americans” Handbook provides all details on the network.

VISION STATEMENT

It is our belief that this system will usher-in a new era of national and international policy influence and a path-to financial independence for minority populations, by providing a group-economic, communication and investment system that will leverage the value of the population's spending, the talents and their collective voice, while revolving (rebating) a percentage of the monies from the group-purchases back into the communities for economic development, automatic family and population investment and individual revenue streams without government intervention, political or financial dependencies from any source.

VISION BREAK-DOWN

1) National and International Policy Influence	- The PC Communication Platforms. - The PC Debit Card Purchasing	The group of forty million Americans finally have a purchasing and communication platform that will cause law-makers to hear, respond and act-on the group's concerns (<i>because the law-makers fully understand the economic-power of the group</i>).
2) A Dependable Path (source) to Financial Independence	- The PC Debit Card Rebates - The PC Automatic Investment & Returns Network PC-AIRN	The new "automatic life-time income source" from the rebates, investments and the financial education and resources will produce the type of life-style each user desires.
3) A Group-Economic System	The PC Debit Card The PC-AIRN (Automatic Investment & Returns Network)	The forty million individuals spending their money using a specific set of merchant service-providers and the in-network corporate-providers, produce the new Group-Economic System.
4) A Group Communication System	The PC Communications CBN (now operating)	The forty million using one platform for their communications, emails, videos, podcasts and social media etc. provides the platform for truth and information from all groups without societal, political or corporate influence on the content.
5) A Group Investment System	PC-AIRN (Automatic Investments & Returns)	A percentage of the funds generated from all platforms are automatically invested and re-invested into seven areas (education, farming, manufacturing, mining, transportation etc).
6) Leveraging the Value of the Spending	PC Debit Card Carolina B2B Network	We leverage the value of spending together, by using one set of merchant providers and spending with in-network (minority) providers and the highest bidding corporate providers.
7) Leveraging the Value of the Talents	PC Debit Cards PC Communications Media Arts & Business Centers Carolina B2B Network	We leverage the value of our talents by using our member-businesses, resources and contracting with the companies that pay our users the most in salaries.
8) Leveraging the Value of the Collective Voice	PC Debit Card PC Communications CBN (now operating)	Forty million using the PC Communication's Platform will cause corporations and law-makers to adhere-to and act-on the needs of the forty million.
9) Community Economic Dev. Funding	- PC Community Development. - HCCD (now) - PC Debit Card payments	\$18,000 to \$120,000, four million and Twenty-four million dollar returned and revolved through local small businesses and nonprofits will allow communities to be strengthened and sustained financially.
10-12) Automatic Individual, Family & Population Investment & returns	PC-AIRN (Automatic Investments & Returns)	A percentage of all rebates will be automatically invested on-behalf of the group and Every user. Every user will automatically receive a dividend check for the remainder of their life (<i>everyone qualifies</i>).
13-15) No Gov. Political Intervention or support.	The PC Debit Card Corporate Purchasing Contracts.	Because the entire system is based-on the "guaranteed spending" current and projected from each individual and the group, there is NEVER a need for government intervention.

Brief History

The PC Debit Card started-out as a multimedia membership service twenty-five years ago and has been tested in cities nationwide and with many industries and demographics.

The PC Debit Card is a Group Purchasing Network that charges corporations a fee for exclusive business contracts with the members. The amount that is collected through the debit card system is paid-out every month to the debit card members. Members are contracted to use the paying-corporations (exclusively).

The system is setup and operates serving groups of 500 to 3,500 small businesses and organizations.

The first phase of the PC Debit Card is being launched through a unique funding program, The Two Million Dollar "Funding-Solutions" Campaign. This campaign will distribute an average of four thousand dollars per month to each member of the group of 500 organizations, totaling two million dollars per month.

The campaign will demonstrate the PC Debit Card's ability to electronically collect fees from the corporations and distribute the fees to the participating members who are primarily nonprofit community organizations, youth programs and projects.

A New Era for Business Services and Customer Acquisitions

There is **now**, a new standard for business operations when groups are purchasing together on this level.

Industries that will **LOVE** this Network!

1. Nonprofits, Churches and Schools.
2. Small Businesses struggling to stay-alive or grow their customer-base.
3. Corporations seeking to save on customer acquisitions and advertising.
4. Home Care Industry
5. Youth Sports Programs
6. Performing Arts Programs
7. Senior Care Industries

WHY DO THEY WIN:

Because they have a vested-interest in helping the forty million WIN!

40 MILLION WINS

1. Corporations who will accept the PC Debit and Group Customer Contracts.
2. Small Business Owners.
3. Nonprofits, Churches and Schools who will use the PC Debit Purchasing Card.
4. 40 Millions Individuals who desire an increase in their annual income.

A New Era for Funding Dreams and Generational Wealth

New Jobs and new business opportunities will be made available for Individuals and business owners who may lose their job or business because of this system.

Industries that will **HATE** this Network!

or will need to re-structure how they serve.

1. High interest loan companies (predatory lending).
2. Customer referral services and lead generators.
3. Advertising agencies will see a need to re-adjust services.
 - Why? Because of the corporation's guaranteed life-time customer contracts.
 - Corporations will take from their advertising budgets to pay into their rebate and purchasing contract budgets.
4. Debit card transaction companies.
5. Lobbyists & politicians receiving kick-backs, favors and money for setting laws, regulations and policies for how corporations reach demographics of people.
6. The Prison, Probation and Parole System (to include criminal attorneys and bail bondsmen).
7. Prepaid debit card companies..
8. The Video, Music and Entertainment Subscriptions Services (to include porn sites).
9. Drug dealers, gangs, criminal organizations and entertainment companies that distribute self and community destructive materials.

THEIR NEW SOLUTION:

To Serve the Forty Million in a different capacity.

If industries **will not change** with these times, they will go out of business, just like those that did not change with the internet era.

WHY THE HATE?

1. Because these industries benefit from the status quo of the various group's conditions, misfortunes, ignorance or education levels.
2. Or Because whatever service or system they provide is dependent on these groups not understanding the destructiveness of their services or products.
